PROJECTS

EDA on Covid Dataset (Team Work)

Visualising the data and predicting which states are more affected due to covid and which have more recovery rate. Also, we have used clustering techniques and matplotlib for data visualization.

Rock Paper Scissor AI Game (Teachable Machine Learning)

In these we train the model with different images under three categories and integrate the model with java script.

Driver Sleep Detection and Alert System (Team Work)

A webcam that constantly takes image of driver, a beagle board that implements image processing algorithm of sleepy detection and a feedback circuit that could generate alarm and a power supply system.

EDUCATION

Vishnu Institute of Technology, Bhimavaram - B.Tech (CSE)

(2019- 2023)
Current GPA : 9.10

Sri Chaitanya Junior College, Vijayawada - Intermediate (MPC)

(2017-2019)

GPA : 9.79

Siddardha Vidyalayam E.M High School , Narasaraopet- SSC

(2016-2017)

GPA : 10

CERTIFICATIONS

AWS Cloud Virtual Internship - AICTE (EduSkills)

Python Data Structures - Coursera

Machine Learning for All - Coursera

Programming Essentials in Python - Cisco Networking Academy

IBM Data Science - Coursera

Effective Business Communication – edX

CORE SKILLS

Python

Java

DBMS

SQL

Data Structures

HTML,CSS

JavaScript

CODING PLATFORMS

Hackerrank : @19pa1a05b7

LeetCode : @19pa1a05b7

PARTICIPATIONS

- Participated in **Week of Web Hackathon**
- Participated in **WIDS Datathon**
